S-491: Intermediate National Fire Danger Rating System

Course Dates: February 26th-March 1st, 2024

Course Location: NAFRI – Tucson, AZ

NAFRI Course Coordinator: Liz Figgins, liz.figgins@nafri.gov

Course Description:

During this course, students develop knowledge of the inputs, calculations, and outputs for the National Fire Danger Rating System (NFDRS). They learn skills necessary to maintain their local NFDRS products and to interpret and apply the results on their home unit. Course lectures and exercises support practical and technical application of complex subject matter. This course will be presented using hybrid delivery.

Objective:

Upon completion of this course the student will demonstrate the knowledge and skills necessary to operate, apply, and manage the National Fire Danger Rating System.

Target Group:

The course lessons and exercises support training for dispatchers and others charged with editing and inputting weather information into WIMS used for NFDRS calculations, fire management staff who apply NFDRS outputs to decision-making, fire practitioners who update and maintain Fire Danger Operating Plans, and fire behavior specialists who incorporate NFDRS products into assessments and projections.

Total Hours:

- Pre-Course Online Component: 20 hours of asynchronous learning
- Classroom instruction: 36 hours
- This course will be presented using a hybrid delivery method. The self-paced Pre-course Online Component will be completed via the Wildland Fire Learning Portal.
