NFPA 1700 Guide to Structural Firefighting Course

The Clear Fire Authority in cooperation with Evergreen Fire/Rescue will be offering an ISFSI based training course on NFPA 1700. This is a dynamic course with a mixture of lectures, hands on skills, and practical evaluation. There will also be an opportunity to complete a Train the Trainer for participants to bring the program back to their departments. The course will be offered for two days. Day one and two are the same material, those wishing to complete the Train the Trainer portion will assist with the education on day two.

Cost: No cost for classroom instruction
